Akshaya Madhavan

UX Researcher

HELLO, I'M AKSHAYA!

I am a junior UX researcher based in the Bay Area.

I'm curious about people. I enjoy digging deep into complex user problems with hands-on qualitative methods. In the future, I would love to learn more about mixed methods research.

I graduated from the Master of Human-Computer Interaction program at Carnegie Mellon University in August 2021. In the past, I've done a research project at NASA and volunteer work in the e-learning space. Currently, I am a UX researcher at Google on a contract basis.
